Re: Class II Permissive Change Application for Panasonic Single WLAN Modular³ under
FCC ID: ACJ9TGWL12A / Certified Under FCC Parts 15B, 15C and 15E
For Installation within Panasonic Personal Computer Model UT-MB5000

To whom it may concern:

Pursuant to CFR § 2.1043, Panasonic Corporation of North America hereby requests a Class II Permissive Change for its application with FCC ID: ACJ9TGWL12A, which was granted on May 9, 2012 by Compliance Certification Services.

- This change represents installation of the subject single modular into Panasonic Personal Computer Model UT-MN5000.
- In reference to the subject single modular and compliance with FCC Part 15E, we hereby attest that Ad Hoc Mode is disabled on non-US frequencies and on DFS frequencies (5.25-5.35 GHz and 5.47-5.725 GHz). This device does not transmit beacons in 5.25-5.35 GHz and 5.47-5.725 GHz bands.
- The modules used in the UT-MB5000 will be specially programmed and tuned to operate at a lower power setting than the maximum power to ensure output power does not exceed the targets described in the SAR report.

Thank you for your attention to this matter.

Sincerely yours,

Richard Mullen
