TZ202055 SensiumVitals Patch labeling rationale

18th June 2012

To Whom It May Concern:

The TZ202055 SensiumVitals Patch is a single use disposable device delivered to the point of use in a sealed pouch.

All FCC information is contained on the pouch labeling with the intent that required information will be seen by the user at point of issue when opening the pouch, hence negating the requirement for having the FCC ID on the patch label which is only 32 x 32mm in size.

Once the patch battery life has expired the unit is disposed of as clinical waste and is not reused.

Thank you for your attention to this matter.

Yours faithfully

A handwritten signature in black ink that reads 'Simon Pearmain'.
