

B621 0

The image shows a green PCB with several components. On the left, there are two purple rectangular components, possibly capacitors, mounted vertically. In the center, there is a small silver component with the text 'MAG' printed on it, and a coiled spring. On the right, a large, silver, C-shaped metal bracket is attached. The PCB has several circular holes, some of which are filled with orange solder. The text 'B621 0' is printed in white in the upper central area.
