Mr. Andy Leimer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear Mr. Leimer:

We have received the ICOM Inc. letter, dated January 31, 2008, notifying us of the application for Federal Communications Commission (FCC) certification on transceiver, Model IC-A14, FCC ID: AFJ307400 and have completed the subject review. We have no objection to the FCC certification of this air-ground very high frequency (VHF) ICOM Inc. transceiver, which is a ground radio that operates in the aviation protected VHF band of 118.0 MHz to 136.975 MHz with 25 MHz channel spacing, within the United States National Airspace System.

If you require any additional information, please contact Ms. Annette Allender, Spectrum Planning and International Division, at (202) 267-3893.

Sincerely,

Robert A. Frazier
Manager, Spectrum Planning and
International Office
