RE: FCC ID: AK8CECHZC2_ATCB005618
Attention: Takumi Shimada / Yoshinobu Asai

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the device appears to be large enough (i.e. not palm size) and there appears to be more than ample room to place the 2 condition statement on the device. Please explain and please justify why the statement is not on the device or please provide a label showing the 2 condition statement on the product.
2. Please note that the FCC requires that testing follow accepted FCC procedures. Please note that except for EUT setup ANSI C63.4 is not an appropriate test procedure for FHSS devices. Please note that for FHSS devices this would be DA000705. Please note that the report does not reference this document nor does it specify the testing as found in this document. Please provide test data that clearly references the approved FCC test procedures for BT (FHSS) devices. Please remember to provide the appropriate test procedure for each of the individual tests performed.
3. Please note that while not a lot has been made of it in the past few years, the historical position of the FCC is that the complete manual either final print or draft is to be provided in the application. Please note that recently the FCC has begun to send RTs requesting that the full manual be provided. Please either provide the complete manual in final print or draft or alternately please verify that the manual provided is the full manual for the product.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
