

12. Important Notice for Radio Regulations

Antenna

This module has the approval of the module certification with below antenna:
FPC-ANT-B (Sony P/N 1-981-353-11, Peak Gain -1.40dBi, Cable Length 34mm)

FCC Information

Since this module is not sold to general end users directly, there is no user manual of module.

For the details about this module, please refer to the specification sheet of module.

This module should be installed in the host device according to the interface specification (installation procedure).

This module complies with Part 15 of the FCC rules.

- FCC ID: AK8FLN01WBM

When using this “FL-N01-WBM” module as radio device in US market device, installer must keep below condition.

- 1) The label that attached back side of the module indicates complied ID.
DO NOT remove that label or put another label on this indication label.
- 2) If the FCC ID is not visible when the module is installed inside host device, then the outside of the host device into which the module is installed must also display a label referring to the enclosed module. In that case, the final end product must be labeled in a visible area with the following:

Contains FCC ID: AK8FLN01WBM

About indication: It is required that easily readable font size, but not required to keep more than 8 point. Line feed in middle of sentence is not acceptable.

- 3) Need to indicate below sentence on the final product label.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Basically above indication is required to label on final end product. But when that final end product is small case, it is approved that only indicate in the final end product user's manual.

** That condition example of small product is smaller than 8 cm x 10cm or smaller than the hand. But there is a different opinion by verifier of the FCC and the TCB. So it is recommended that installer check in advance.

- 4) Need to indicate below sentence on the final product manual.

Precautions of modifications

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

Precautions of Co-location

This equipment must not be co-located or operated in conjunction with any other antenna or transmitter.

Precautions of SAR

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment has very low levels of RF energy that is deemed to comply without testing of specific absorption rate (SAR).
