Subject: Response to Inquiry to FCC (Tracking Number 173757)
To: hotline@ATCB.com

Inquiry:

---Reply from Customer on 07/19/2007---

Kindly note that the report was previously reviewed by ATCB. Also, please note that the report provide did contain both 99% and 20 dB bandwidth measurements. This particular lab has always included both since IC has a 99% requirement as well. You will see 20 dB bandwidth results on the pages directly following the 99%.

In addition, due to concerns with the methods, the lab has updated the report to clarify the detectors. See section 5.4 of the modified report provided with this email.

Please confirm if this application is now acceptable for Certification.

Thank You,

Tim

Response:

Go ahead and grant after you review all exhibits. Please note that further review may performed and based on final exhibits in the filing. Submit a reference of this KDB inquiry into the filing.

Thanks.
