

Series model

There are 2 models of this product: MEX-BT2700 and MEX-BT2750.
And those two are series models.

The difference is as follows:

[Radio Receiving band]

MEX-BT2700: FM, MW

MEX-BT2750: FM, MW, SW

*There is no difference in the RF part or its external appearance and therefore no modification was made in radio/electrical characteristics.

Test was done on the representative model: MEX-BT2750. However, only MEX-BT2700 will be marketed, thus the certificate needs only on MEX-BT2700.
MEX-BT2750 will be marketed in other countries than territories of FCC and IC.
