

Sony Corporation

FCC ID: AK8MHSTS55

26th Oct., 2011

Supersede Request

To: Federal Communication Commission
Authorization and Evaluation Division

FCC ID: AK8MHSTS55

Product: Mobile HD Snap Camera

Model: MHS-TS55

We had requested confidential treatment of schematics, block diagram, operation description, external photo, internal photo, test setup photo and user manual to the granted ID AK8MHSTS55.

It is our understanding that all measurement test reports, FCC ID label format and correspondent during certification review process cannot be granted as confidential documents and those information will be available for public review once the grant of equipment authorization is issued.

But we found that the documents of label location and label sample were placed into product photo. It is relevant to our business confidentiality to exhibit product photo in the FCC website within the confidential term.

We request to supersede these two documents with the product electronic drawing.
