**Attachments:** Exhibit E1 Operational Description\_R.pdf

Dear Ms. Tsai

Thank you very much for your early reply.  
I am writing to you regarding your e-mail of November 6, 2007.

For Q#1  
It is a typo by the misunderstanding.  
I attach the corrected documents.  
Please confirm file number "Exhibit E1 Operational Description\_R".

For Q#2  
Before, I submitted the circuit diagram that is common of a similar model.  
The applied model do not have WLAN.  
The operation of this model is only operation mentioned in the operational description.

Sincerely yours,

Katsunori Miura

Hi Mr. Miura,

Please address following issues.

Q#1: Theory of operation indicates the operating frequency range for a Bluetooth module is from 2412 to 2462MHz which doesn't agree with the test report and Bluetooth specification, please do the necessary revise.  
Q#2: Except Bluetooth transmitter, schematic also includes a WLAN transmitter. Please explain.

Best Regards,  
Lucy Tsai
