Dear Ms. Tsai

I am writing to you regarding the indication matter.

For Q#1 and Q#2
I am sorry to mistake.
I attach the new label information.
Please confirm the file number "Exhibit _E1 Label_R".

For Q#3
Suddenly, the modulation condition was changed to three kinds.
The test report which I submitted before was the test only for one kind of modulation condition.
Now, I am testing other modulation condition.
After the test end, let me submit a test report again.
Please wait a few day.

For Q#4
There is a description of "Bluetooth" in the operational description.
Their reply is described below.
For 2.a
This product complies with this item15.247(a)(1).
This product use the pseudo-random hopping sequence.
For 2.b
This product complies with this item15.247(g).
The hopping channel used is decided according to the specification of Bluetooth AFH.
For 2.c
This product complies with this item15.247(h).
RF transmitter other than Bluetooth is not built-in.

Sincerely yours,

JAPAN QUALITY ASSURANCE ORGANIZATION TESTING DIV.

Hi

Please address following issues.

Q#1: FCC ID indicated in the label format is AK8NVU84T which is different from AK8NVU94T as listed in the application form and test report. Please confirm which one is correct and do the necessary correction accordingly.

Q#2: Part 15.19 statement shall be on the product since the EUT is large enough. Also, FCC label shall be on the EUT where is always visible.

Please address.

Q#3: Please provide an updated test report by removing EUT photo and test setup photos because both of them are asked for short-term confidentiality.

Q#4: Please provide an additional document or revised technical description to include information describing compliance with the requirements of 15.247(a)(1), 15.247(g) and 15.247(h).

Best Regards,

Lucy Tsai
