RE: FCC ID: AK8VGPUHDP04_ATCB002993
Attention: Kenichi Adachi / Yukari Ito

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that Part 15 explicitly states that the fundamental must be higher than any spurious emission from the device. Please note that the fundamental listed on page 15 shows a couple readings for the fundamental that are less than some of the spurious emissions readings on page 16 of the report. Please explain and please report the maximum fundamental readings as appropriate.
2. Please provide photos of the bottom of the circuit board.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
