

Date: December 6, 2005

RE: Sony Corporation

FCC ID: AK8VGPUHDP04

Dear Mr. Dennis Ward,

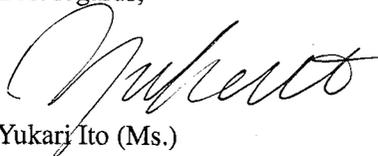

Regarding the above referenced application, please find our reply to your comments dated December 2, 2005

1. The two lower readings of the fundamental (than that of spurious emission) listed on page 15 is just for reference in order to indicate at which angles the EUT has the max power. Those two readings of the fundamental are not at the maximum angle.
2. Please confirm revised Internal Photo submitted on your website.

We hope the above reply is satisfactory.

If there are any other problems, please inform us at your earliest convenience.

Best regards,

Yukari Ito (Ms.)
