RE: PERMANENT CONFIDENTIALITY REQUEST FOR Elara 60 E
FCC ID: AL8-E60E

To Whom It May Concern:

This letter serves as an official request for confidentiality under FCC Rule Section 0.457(d) and 0.459.
We have requested that:

- 1) the schematic diagrams
- 2) the detailed block diagrams
- 3) the theory of operation/functional description

required to be submitted with this application be withheld from public review. These documents are company proprietary information that is not publicly available and would damage Plantronics, Inc.'s commercial interests if made public.

Please contact me if there is any information that you may need.

Regards,

Mark Lawson
Sr. Manager Global Compliance

Attention: Application Examiner

RE:

Request for Short-term Confidentiality Under FCC Part 15 Certification

Applicant: Plantronics, Inc.

FCC ID: AL8-E60E

To Whom It May Concern:

Short-term Confidentiality

Request is hereby submitted by **Plantronics, Inc.** to withhold from public review for a period of **180 days** from the date of the Grant of Equipment Authorization and prior to marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept confidential for a period of **180 days** from the date of Authorization:

- Test setup photos
- External photos
- Internal photos
- User manual

Rationale for request for confidentiality:

Plantronics, Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investment in research and development.

If you have questions or need further information, please contact the undersigned.

Regards,

Mark Lawson
