Columbia, MD. 21046

Date: Mar. 8, 2002

Attention: Authorization and Evaluation Division

Subject: **Class II Permissive Change/15" LCD Monitor, FCC ID: ARSTF1560E**  
**Original granted on July 22, 1999.**

Dear Sirs:

This letter serves as our explanation that the subject certified product changes are the change of model name, brand name, outer appearance and its construction. Below listed some modifications on the sample submitted for testing. We declare that the same will be implemented into all production units to enhance compliance of the units to FCC limits.

The modifications include the following:

1. Added two ferrite cores on the video cable – one in the inside and one in the outside of the monitor. (see photo 2 & 3)
2. Added a ferrite core on the DC cable of power supply. (see photo 4)
3. Added metal cover on the component side of the logical board and the inverter board for EMI. (see photo 7)
4. Added two EMI tapes on ribbon wire which stick to the metal cover on the back of LCD panel. (see photo 9)
5. Added one EMI gasket on the inside of metal cover. (see photo 8)
6. Added four ferrite cores on the ribbon wires connecting logical board and LCD panel. (see photo 12)
7. Added two EMI gaskets on the back of LCD panel. (see photo 12)

If you have any further questions or comments regarding the above, please don't hesitate to contact Mr. Mike Su of ADT Lab. at fax No.: 886-2-2602-2943 or
