Re: Form 731 Confirmation Number: EA978518 with FCC ID: AZ489FT4855.

Dear Mr. Fabina;

Motorola Inc., 8000 West Sunrise Boulevard, Fort Lauderdale, Florida 33322, herein submits its request to amend the highest reported Body-Worn SAR value from 7.41 W/kg as listed on the FCC Grant to **6.95 W/kg**.

Motorola will not be offering for sale the Public Safety Microphone kit as compatible with antenna NAE6546 which has a SAR value of 7.41 W/kg as reported on page 7 in the 18th February 2003 response to the FCC's correspondence number 24784.

We have amended the Users Manual to reflect that only antennas NAE6547 and NAE6549 are approved with Public Safety Microphone kits, NMN6247, NMN6250 and NMN6251.

Please update the FCC files and re-issue the grant with the reduced highest SAR value 6.95 W/kg for Body-Worn.

Contact me at (954) 723-5793 if you require any additional information.

Sincerely,
/s/ **Mike Ramnath**
FCC Liaison
