Gentlemen:

Gentlemen:

On behalf of Motorola, Inc., we request Certification for the above referenced device which contains two co-located transmitters. The HDT 600 Terminal, Model: F4415A is a ruggedized handheld data terminal which contain the following:

- 1.) A Bluetooth Intentional Radiator, previously Certified under Part 15.247 with the FCC ID: AZ489FT7004. The two models would be considered "identical" as defined by Part 2.908. We have submitted the appropriate test data for the six required measurements including an exhibit for SAR. We have also referenced the twelve items which are common to all Bluetooth devices and included the list, verbatim, provided by the Mr. Joe Dichoso.
- 2.) The second transmitter is a Motorola, Inc. 800 MHz iDEN, previously certified under Part 90 with the FCC ID: AZ489FT5796. We have submitted supplemental radiated spurious and harmonic emissions data for this transmitter and antenna combination as well as SAR. We will be referring to the original Certification test data for the measurements where appropriate. The two models would be considered "identical" as defined by Part 2.908.

Thank you for your time and consideration of this application. Please contact the undersigned for a prompt response should you require any additional information concerning this request for Certification.

Sincerely,
