Request for Class II Permissive Change

July 11, 2022

Federal Communications Commission
45 L Street NE
Washington, DC 20554

FCC ID : CANON INC.
Applicant : AZDWM01B

To Whom It May Concern:

This is a Class II permissive change request for the above mentioned FCC ID, originally granted on October 29, 2021 and all its permissive changes.

Limited Modular Approval in Mobile configuration or Portable configuration with a specific host device has been obtained for this module. We would like to add a portable host device (Flat Panel Detector, Model WM5B02), therefore SAR testing with the new host device was performed, and the Class II permissive change application in Portable configuration is submitted.

We submit the following documents related to this change.
There is no change before and after change except for these documents.

<input checked="" type="checkbox"/>	Test Report (SAR)
<input type="checkbox"/>	RF Exposure ()
<input type="checkbox"/>	External Photo
<input type="checkbox"/>	Internal Photo
<input type="checkbox"/>	User Manual
<input type="checkbox"/>	Label Drawing/ Location
<input type="checkbox"/>	Block Diagram
<input checked="" type="checkbox"/>	Theory of Operation
<input type="checkbox"/>	Schematic Diagram
<input type="checkbox"/>	Parts List

This time, we performed tests and confirmed that this product still meets the minimum requirements of the applicable rules of FCC.

Thank you for your attention to this matter.

Sincerely,

Tetsuo Watanabe
CANON INC.
