

Attestation letter for modular approval according to CFR 47 15.212**Model: MP Access radio module
FCC ID: B7WACCESS**

Requirement	Comments/Declaration
i. The radio elements must have the radio frequency circuitry shielded. Physical/discrete and tuning capacitors may be located external to the shield, but must be on the module assembly.	The radio module has its own RF shielding.
ii. The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	The modulation inputs are buffered such that modulation input is limited.
iii. The module must contain power supply regulation on the module.	The module has power input regulation on the power supply input.
iv. The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	The module contains a permanently attached antenna.
v. The module must demonstrate compliance in a stand-alone configuration	The module was tested in a stand-alone configuration.
vi. The module must be labeled with its permanently affixed FCC ID label, or use an electronic display	The module contains a permanently affixed label with the FCC ID clearly displayed. The final device assembly contains a label that notifies the user that the device contains the radio module and references the FCC ID number of the module.
vii. The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements.	Micropower E.D. Marketing AB customers integrate this module into their own devices and are responsible for labeling of the module and final assemblies and for the compliance of the final assembly with CFR 47, 15.247.
viii. The module must comply with RF exposure requirements.	The device meets the requirements for rf exposure in a mobile configuration as provided.
