**B. Access to the required information on the e-label**

1. Users are able to access the information in no more than three steps in a device's menu. The actual steps are:

*To access the e-label information, in the device,  
Choose: Settings > General > Legal & Regulatory*

*No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device.*

2. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.

Yes

3. Users are provided specific instructions on how to access the information.

*The information to the user is provided in the iPhone Info document.*

**C. Labeling for Importation and Purchasing**

1. Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:

1. The FCC ID and/or the SDoC logo (if applicable); and
2. Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging inserts.

*The FCC ID and SDoC logo are present on the product packaging.  
Model number is present on the SIM access bore. For A2651, model  
number is present in Charging slot.*
