Dear Michael Heckrotte,

You are listed as the technical contact for the above referenced TCB application. The following items need to be addressed before the review can be completed:
Please submit internal photographs with a resolution sufficient to resolve components on the board.

<answer>attached pls find additional internal photos.

1. Please provide label photo/drawing and label location exhibits.

<answer>attached pls find revised FCC Label.

2. Please submit a detailed description of the 3x3 MIMO operation (i.e. is this a Spatial Multiplexed device, does it have cyclic diversity, are the antenna elements driven incoherently, etc.). Is this transmitter capable of operating on multiple channels simultaneously?

<answer>attached.

3. Please provide updated information in the Users Manual which informs the users about RF Exposure and the requirement to provide at least a 20cm separation to comply with FCC 15.247 and 15.407.

<answer>attached pls find revised manual.

Please note that the associated application for the UNII portion (Assessment # AN06T6237) is being addressed separately.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee.

Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
