Subject: Re: Questions Regarding FCC ID: BEJGM630

Dear Mr. Gregory,

Thank you for your comments.
The replies are embeded in your questions.
Please give me the Grant without the confirmation request process.
Should you have any questions, please let me know.

Best Regards,
SunHee Kim

Subject: [Questions Regarding FCC ID: BEJGM630](#)

To: Ms. Sun-Hee Kim / HCT
From: Mr. Gregory Czumak/ PCTEST TCB

RE: FCC ID: BEJGM630

Applicant: LG Electronics Inc.

Correspondence Reference Number: BEJ90234

Confirmation Number: 903060234-36
Date of Original Email: March 9, 2009

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The operational description lists WCDMA capability. Please confirm that this is not implemented in the EUT for use in the U.S.
==> We confirm that WCDMA capability is not implemented in the EUT for use in the U.S.
2. The PCS body SAR z-axis plot does not appear to correspond to the measured value. Please ensure that this is the correct z-axis plot for this measurement. If it is not, please submit the correct plot.
==> The z-axis plot is correct one. Please double-check this.
3. FYI: The SAR probe calibration points are more than 50 MHz removed from the measured bands. In accordance with the FCC Application Note 450824 D01 SAR Prob Cal and Ver Meas v01r01, this situation entails additional requirements for the tissue fluid parameters used during SAR testing (see p.4/7 of the App Note). The tissue fluids used in the SAR tests performed here do not meet the criteria set forth in the App Note. Please note that, in the near future, this requirement will be enforced.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
Quality Manager
