

From today's monthly FCC/TCB conference call, the FCC is asking for the following to be justified. If the labeling is placed under the battery, please explain the following:

The label must be readily visible at the time of purchase (i.e. the phone will be marketed without the battery installed and requires the user to install upon purchase).

2. The label location of this device is under battery.

Normally the mobile phone will be marketed without the battery installed.
