

Request for transmitter Full Modular Approval

Transmitter Module Characteristics

Item Requirements EUT

1	Yes	Have its own RF shielding	Have its own RF shielding Please refer Photos
2	Yes	Have buffered modulation/data inputs (if such inputs are provided),	Have buffered modulation/data inputs, Please refer to block diagram and schematic U101
3	Yes	Have it own power supply regulation	Have it own power supply regulation Please refer to block diagram and schematic U101
4	Yes	Meet the antenna requirements of Section 15.203	Meet the antenna requirements of Section 15.203 Show antenna information
5	Yes	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing	Be tested in a stand-alone configuration, i.e., the antenna, DC power and data input/output lines must be connected to the module but, the module must not be inside another case during Please refer to test setup photos

6	Yes Be labeled with its own FCC ID number, and if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	Be labeled with its own FCC ID number Show Label information
7	Yes The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The modular transmitter comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer. Please refer to User manual
8	Yes Address compliance with the Commission's RF exposure limits in Sections 1.1310 and 2.1093. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF exposure compliance in accordance with Section 15.247(b) (4).	The compliance to the RF exposure limit of the committee is described in section 1.1310 and 2.1093. In addition, Refer to test report a spectrum transmitter of the spread that operates under section 15.247 conforms to section 15.247(b) (4).
