Federal Communications Commission
EQUIPMENT AUTHORIZATION BRANCH
7435 Oakland Mills Road
Columbia, MD 21046

Reference: FCC: BYMXCVR6K1

Dear Sirs:

We respectfully wish to apply for a Class II permissive change for the above referenced FCC Identifier under the provisions of FCC rule 2.1043.

We are introducing the EC30 – Extended coverage antenna kit to be used with the XCVR6K1 (BASE6200).

EC30 kit includes Antenna adaptor cable with RP TNC plug, 100 feet cable, lightning arrestor and 8dBi Flat Pitch Omni-directional Antenna. Omni-directional antenna is used to partially compensate for losses in the 100ft cable and the other kit's components. To comply with FCC rules total EC30 gain must not be greater than 0dBi.

Based on the above, the EC30 must be purchased only from HME authorized dealers, and must be installed by HME certified professionals.

The applicant certifies that no party to this application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug abuse Act of 1988.

Your prompt attention to this matter is appreciated. Please let me know if there are any questions or if further data is required.

Sincerely,

Karl Knoblock
Senior Electronics Engineer
HM Electronics Inc.
