

Label Location

FCC ID: C3K00002101

IC: 3048A-00002101

Due to the small size of this SiP module, it does not have sufficient room to accommodate the FCC ID C3K00002101 in a font of 4 point or larger. The module does not have electronic labeling. Hence the FCC ID is placed in the packaging and the Module Integration Guide according to FCC KDB 784748 D01 General labeling and Notification v09r02.

HVIN / Model number is located on the top of the module.
