Hi Tim,

Q1: Co-located WLAN and BT modules are described and evaluated in the SAR report. The evaluation is ok, but I do not see the FCCID of the WLAN and BT modules. Please provide the FCCID's for the modules.

[Answer]WLAN and BT modules FCC IDs were stated on the attached MPE calculation report.

Q2: Please describe how Toshiba will address compliance for the co-located modules in the Netbook platform (Composite filing, modular procedures, etc) and describe how the product will be labelled.

[Answer]colocated modules have been addressed through modular approvals changed. When the wlan and BT is installed inside, host label will indicate "Contains FCC ID:XXXXXXX".

Q3: The product label does not show DoC markings although the user manual indicates DoC compliance. Please provide a revised label or statement confirming that the grantee will affix the appropriate label and label information for DoC.

[answer] Will the revised label with DoC logo later.

Thanks.

Claire
