Dear Frank / Kwok:

Submitted herewith, on behalf of Hyundai Electronics Industries Co., Ltd., is an amendment in response to your e-mail dated December 17, 1999 requesting additional information for the subject application.

1. We confirm that for future applications we will submit body-worn SAR test data for the high, middle, and low frequencies.
2. The body-worn SAR measurements were performed without using any body-worn accessory by maintaining a 0.5 inch separation between the phone and the test device holder..
3. Attached is a letter from the applicant stating the revised RF exposure warning statement that will be placed in the user's manual.

We trust this information is sufficient to issue the grant asap. Should you have any further questions, please do not hesitate to contact us. Thank you.

Sincerely,
