

RADIO REMOTE CONTROL AND TELEMETRY SYSTEMS

December 27, 1999

Rick Linford
DNB Engineering, Inc.
1100 East Chalk Creek Road
Coalville, UT 84017

Dear Rick,

In order to be in compliance with FCC regulations, we are limiting sales of the following radio controls to frequencies between 903 and 927 MHz. We are also reprogramming the associated programming units so that customers and service personnel will be able to program the transmitters to frequencies between these limits. Please find attached new manual insert for the COMMAND PRO family with reflects the change in allowable frequencies.

<u>Model No.</u>	<u>Engineering ID</u>	<u>FCC No.</u>
21T14	RCT814	EGT814TX
21T18	RCT818	EGT818TX
21T20	RCT820	EGT820TX
21T23	RCT823	EGT823TX
21T34	RCT834	EGT834TX
21T44	RCT844	EGT844TX
21T54	RCT854	EGT854TX

Sincerely,

A handwritten signature in cursive script, appearing to read "John Schooley".

John Schooley
