Agent	Wayne Rieger, Yogendra Shah
Approval Type	Original
Equipment Class	DTS Digital Transmission System NII Unlicensed National Information Infrastructure
Rule Part	15.247 15.407

Overview

This application is for an original filing of Intermec's radio model 1000CP01 installed in Intermec's handheld computers CN70, CN70e and CK71. The radio has 3 model numbers, 1000CP01, 1000CP02 and 1001CP01, however, the radios are electrically and mechanically identical. The radio is 802.11a/b/g/n compliant.

The FCC ID for this radio is EHA-1000CP01X2. The radio may be used in close proximity to the head and body, so SAR measurements were performed and reports submitted. The device operates under 47 Cfr parts 15.247 and 15.407. In the 5 GHz UNII band the radio functions as a client only and does not have radar detection, no ad-hoc capability. A DFS report has been submitted. Users are cautioned that the radio is restricted to indoor use in the 5150 – 5250 MHz band.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Short term confidentiality requested for some exhibits.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
