Subject: Application for Grant of Original Certification

Dear Application Examiner,

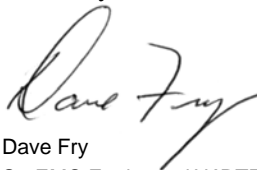

Intermec Technologies Corporation is submitting this application for Original Certification for the IM5r3 RFID radio, FCC ID: EHA-IM5R3. This application also requests the IM5r3 be granted full modular approval. A letter confirming the modular approval requirements is contained within this application.

The IM5r3 RFID radio operates at 940 milliwatts as frequency hopping spread spectrum transmitter operating within the 902.75 – 927.25 MHz band. The radio is designed read and write information to passive RFID tags.

This radio is used within several Intermec products, integration testing will include verification the transmitter characteristics remain as documented in this application and the end product complies with all FCC regulations. Integration testing will be reported under Certification, Declaration of Conformity or Verification rules defined by 47 CFR Parts 2 and 15.

Your efforts in reviewing this application are greatly appreciated. Please contact me if there are questions or additional information needed concerning this request.

Sincerely,

A handwritten signature in black ink, appearing to read "Dave Fry", is written over a light blue circular graphic that is part of the background design of the letter.
