**FCC E911 Requirements Per §22.921**

Gentlemen:

LG Information & Communications, Ltd. hereby certifies that the analog cellular telephone (FCC ID: FFMDM112), using the Automatic A/B Roaming - Intelligent Retry method, meets the E911 requirements specified in Section 22.921 of the FCC Rules. This procedure recognizes when a "9-1-1" call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call and permit the call to be handled by other analog carriers.

Should you have any questions or comments concerning the above, please contact the undersigned.
