RE: Visonic Ltd.

FCC ID: GSANEXTMCW

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Although the theory of operation may explain how the device is compliant with the 5 second rule to 15.231(a), the FCC requires that a measurement plot be provided to show compliance with this. Please provide a plot that shows that the device stops transmitting within 3 seconds per event as specified in the users manual/operational description.

Timothy R. Johnson
Examining Engineer
