The RTH9580WF01 is a wifi enabled thermostat operating in the 2.4GHz ISM band utilizing the popular 802.11b/g/n standard datarates and modulations. This thermostat is designed to control various HVAC equipment. While this thermostat is intended to be used in mostly residential applications, it can also be used in various light-commercial applications as well.

This is an original application for the certification of FCC ID: HS9-RTH9580WF01 under FCC 15.247.

Sincerely,

Alan D. Bredon
