Supplement to SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56GJ1)

Prepared by:

Thomas Nipple

Motorola Mobile Devices Product Safety Laboratory

Libertyville, Illinois

Summary of FCC request for additional information

There was a request for additional information regarding Motorola's SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56GJ1). The requested information is addressed below in the same numbering sequence received.

6. In the SAR report, the dipole validation kit is listed as being past its cal due date. Please address.

FYI:

- (a) in a number of the SAR value tables, the channel numbers appear to be incorrect;

Response:

6. The calibration date listed in the original report was a typo. This and the noted channel number errors have been corrected in the Rev. 2 version of the report.
