

Comment and Response:

- 1) The schematics reference:

\* Where two values are given as value1/value2:  
value1 applies to 125 kHz option  
value2 applies to 134.2 kHz option

Please note that the FCC ID will only cover the one version submitted, which is 134.2 kHz.

**Response: The client has confirmed that only the 134.2 kHz will be certified.**

- 2) The device utilizes a USB connector. Please comment on the authorization of the device as a PC peripheral device. Will this be subject to sDoC?

**Response: Yes, this device is subject to a SDoC and the applicant will supply an SDoC**

- 8) Since the device is portable, please confirm that BOTH the device and antenna wand were investigated in each of 3 axis to obtain worse case.

**Response: Both the device and antenna wand were investigated in 3-Axis to obtain the worst case.**
