Mr. Frank Coperich
Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

Dear Mr. Coperich:

We have reviewed the request from Garmin International Inc. for Type Acceptance of a Mode-C Airborne ATC Transponder, model number GTX 327. The Federal Communications Commission ID number is IPH-0037600. Our office has reviewed the technical data for this transponder and the equipment's performance is consistent with the spectrum requirements of Technical Specification Order C74c. We have no objection to the certification of this device.

If you require any additional information, please contact Mr. Tim Pawlowitz, Spectrum Assignment and Engineering Division, at (202) 267-9739.

Sincerely,

A handwritten signature in cursive script, appearing to read "George K. Sakai".

George K. Sakai
Acting Program Director for
Spectrum Policy and Management
