Using nüinfo Service

Your nüvi comes with a subscription to nüinfo service, which allow you to receive current information on weather, fuel prices, flight times, and more.

For more information on nüinfo service, touch **Tools > Help**, or refer to the *nüvi 1690 Owner's Manual* at www.garmin.com.

NOTE: You may not be able to receive current data when you are in a remote location.

Finding a Destination with Google™ Local

NOTE: Not available in all areas.

Local search enables you to search for the most up-to-date location information.

In addition to searching by spelling the name of a location, you can also search for a specific category of location, like hair salon or art gallery.

1. Touch **Where To? > Google Local**.
2. Select a category.
3. Select a subcategory.
4. Select a destination.
5. Touch **Go!**

Using Traffic

NOTE: Garmin is not responsible for the accuracy of the traffic information.

NOTE: Not available in all areas.

Your nüvi can receive traffic information through your nüinfo service subscription. Your device must be receiving a signal from nüinfo service to receive traffic information.

The traffic icon  changes color to indicate the severity of traffic conditions on your route or on the road you are currently traveling. If a severe traffic delay occurs on your route while you are navigating, the nüvi automatically recalculates the route.
