SUBJECT: FCC Application for IPH-04627

To Whom It May Concern:

Regarding FCC ID label placement for this application, Garmin wishes to place the label inside the battery compartment due to size, aesthetics, and durability. The equipment is sold without the battery installed, offering the end user the opportunity to view the label before operation. The identifier label will be readily viewable each time the battery is removed or replaced. This location will help ensure the longevity of the label as this equipment may be in service in harsh, wet environments where the product will be used.

Sincerely,

A handwritten signature in blue ink, appearing to read "Jeffrey Hailey". The signature is fluid and cursive, with a long horizontal stroke at the end.
