RE: Statement of Similarity between Garmin models VHF300, VHF300i, VHF 300AIS, and VHF300iAIS.

The Garmin Models: VHF300, VHF300i and the VHF300AIS and VHF300iAIS are similar products that share the same housings and common electronic assemblies.

The 'i' versions are electrically identical to their counterparts and operate on the same frequency range. However, the 'i' models have unique frequency channel assignments suited to the EU and other geographic areas outside of North America.

The 'AIS' versions contain an AIS signal receiver but are otherwise identical to the non-AIS versions. These models represent the most complex configuration as they contain functionality not present in the normal VHF300 line.

Sincerely,

A handwritten signature in black ink that reads "David Heald". The signature is written in a cursive style with a large initial "D" and "H".

David Heald
