

Attestation

We, Dialogue Technology Corp., hereby state that the WLAN and 3G (WWAN) modules of VMW1BBHA (FCC ID: JYV-VMW1BBHA) will be enabled to transmit simultaneously since this C2PC grant is issued.

VMW1BBHA originally disabled the co-transmission of WWAN and WLAN modules. However, the distance between WWAN antenna and WLAN antenna is 27 cm, which is larger than 20 cm. Therefore, VMW1BBHA does not belong to co-location category based on FCC definition. And we will enable the co-transmission on this model without the evaluation of co-location RF exposure.

We also declare that the co-transmission of WLAN and 3G (WWAN) modules of VMW1BBHA (FCC ID: JYV-VMW1BBHA) can pass FCC EMC criteria.

Should you have any questions, please have my best attention.
