

Sensus Metering Systems
FCC ID: KCH520F
IC: 2220A-520F

902-928 MHz DTS Radio Module for Utility Meters

Sensus Metering Systems

Model 520F

Contains FCC ID: KCH520F

IC: 2220A-520F

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received,
including interference that may cause undesired operation

ALTERNATIVE LABELING SYSTEM

The module will be installed only in products whose manufacture and/or design is controlled completely by Sensus Metering Systems.

In the non-pit configuration, the radio will be sealed inside of a pod, which will then be placed inside of another enclosure (ex: model 510F).

The label above will be placed on the external surface of both the sealed pod and of the secondary enclosure.

In the pit configuration, the radio will be sealed inside of an enclosure (ex: model 520F).

For this configuration the label will be placed on the outside of the enclosure.

Since the module is sold as part of a sealed configuration, no FCC ID label will be placed on the radio itself, only the outside containers visible at time of purchase will be labeled.
