## General Product Functional Description

The IBC Honda MY24 Cendric consist of SMART system (PASE part) and MICU (Multiplex Integrated Control Unit) system. Both systems are integrated within a single PCB.

The main features of MICU system including:

- Light control
- Wiper control
- Fog control
- Head light washer control
- Diagnostics
- Door lock control, etc

Continental

Model: 420220826

Product: Integrated Body Control Module

FCC ID: KR5-420220826

IC: 7812D-420220826

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

No changes shall be made to the equipment without the manufacturer's permission as this may void the user's authority to operate the equipment.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :(1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
