To Whom it may concern:

The CP-7925G-EX-K9 use the same exact hardware as the CP-7925G the only difference is the CP-7925G-EX-K9 features a modified 7925G phone housing that has been ATEX Zone 2 and CSA Division 2 hazardous locations. CP-7925G-EX-K9 will bear the necessary certifications for Zone 2 environments. Its rugged enclosure will enable it to be operated in environments where it may be exposed to dust, water, and extreme temperatures. A brighter color will differentiate it from Cisco's portfolio of office phones as well as enable workers to locate the phone quickly in event of emergency. Yellow Knight will be able to use all of the same accessories as the 7925G: chargers, batteries, holsters, etc.

Regards,

A handwritten signature in black ink that reads "Craig N. Mullis". The signature is written in a cursive style and is centered within a light gray rectangular box.
