

From C. CRESP to Andrew LIEMER FCC

Dear Andrew Leimer,

please find here under the last email received from FAA after my numerous recall and documentation resent.

I do not know why the process of our file is so long, I did not receive any request of information from them.

I sent the original per FedEx end of december 2004, it was received beginning of January 2006 by FAA, I resent all

the document per email end of January and made several recall per email mid and end of February, tried to get

in touch with them per phone several time.

Fortunately yesterday I got in touch with Mister Robert Frazier and you will find here under

its email answer.

I hope to be able to send you very soon the required final "FAA coordination letter" as required by FCC.

Best Regards

Subject

TR: FAA Coordination letter to FCC
for FCC ID issuance

Dear Robert Frazier and Don Nellis,

As per our phone call today please find here the original email I sent you beginning of February for my follow up.

The original documents were shipped per FedEx en of December 05, received by FAA beginning of January.

I remain at your disposal should you need any additional assistance or additional clarification on our equipment.

Feel free to call me back either per email, office phone or my cell phone. You have all my coordinate here under.

FCC is just waiting your coordination letter to complete they job and to issue our FCCID on this new ELT model.

Best regards

Objet : FAA Coordination letter to FCC for FCC ID issuance

Dear Mister Frazier and Nellis,

We issued some weeks ago a request for "FAA coordination letter" related to our current FCC ID approval submission process.

The FCC department in charge of our file is just waiting the official letter from FAA.

Mister E. BOULLAY, EASA contacted you mid January for getting some information and the letter was in the final stage.

To my knowledge I did not receive any letter yet, either FCC as the status on their web site is still "waiting technical information. The person in charge of our file is Mister Andrew Leimer and he asked me not to contacted him until I received this letter from FAA.

Can you have a look on this file and be so kind to keep me informed.

I am attaching the copy of my initial request letter and its proof of delivery. In the meantime our ELT was approved by FAA Boston and I al also attaching the TSO letter.

Thank you by advance for your assistance.

I remain at your disposal should you need any additional assistance. Note I will be in Washington DC on Feb. 7th & 8th as I am attending a working group with RTCA. If you need to meet with me just let me Know and I will try to arrange it.

Best regards

I wish you and you family an happy and prosperous new 2006 year.
