7345 Oakland Mills Road  
Columbia, Maryland 21046

Gentlemen,

This letter will authorize the appointment of FLOM TEST LAB to act as our Agent in all FCC matters. This appointment is affective until otherwise notified by us.

This is to advise that we are in full compliance with the Anti-Drug Abuse Act. The Applicant is not subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 USC 862, and no party to the application is subject to a denial of federal benefits pursuant to that section.

The original ID used on this equipment was: "M6AACC100". The date of the original grant was 10/18/1996. The original grant was done through our business partner: Acoustical Concepts Corporation. We now own and control the complete manufacture and sales of the device. The proposed new ID number will be: "MBMACC100" which will be under our name: Progressive Concepts. The reason for the change of ID is that we (Progressive Concepts) have purchased the parent company that originally designed the unit and we want to be able to manufacture the units ourselves under our own ID number.

No changes were made to the original values of RF components and the original test results continue to be representative of and applicable to the equipment.

Eric Hoppe  
Owner, Progressive Concepts
