

# **ADRF KOREA, Inc.**

**Date: Nov. 25, 2021**

Federal Communications Commission  
Authorization and Evaluation Division  
7435 Oakland Mills Road,  
Columbia, MD 21046

**FCC ID: N52-PSR-78-8527 (Original Approval Date: 01/04/2021)**  
**Class II Permissive change**

To whom it may concern:

We would like to apply for C2PC to add NPSPAC band under Part 90 by S/W.

Band Name	Link	Frequency	signals
NPSPAC	Uplink	(806 ~ 809) MHz	P25 Phase 1
	Downlink	(851 ~ 854) MHz	

There is no H/W change here.

Also, we will sell a device that finally include the new NPSPAC band to the United States under FCC ID: N52-PSR-78-8527.

So, we will maintain a minimum safe distance of DL: 30 cm, UL: 70 cm while operating near the donor and the server antennas in any environment to meet 5W ERP FCC requirements.

Sincerely,

Best Regards

Hyun-Kyung Song / Management Support Team Manager  
ADRF KOREA, Inc.
