

HP Broadband Wireless Getting Started

Thank you for purchasing an HP Broadband Wireless computer with Built-in 3G broadband from Vodafone. Your new computer, when used with Built-in 3G broadband service, gives you the freedom to stay connected to the Internet, send e-mail, or connect to your corporate network whether you are on the road, across town, or just about anywhere.*

Before you can use Built-in 3G broadband from Vodafone (service purchased separately), you must activate service and install the preloaded software. You will be prompted to run the HP Broadband Wireless setup utility when you start the computer. To activate your Vodafone service and install the preloaded software, follow the instructions in the setup utility.

To learn more about the benefits of your HP Broadband Wireless computer and Built-in 3G broadband, see the HP Web site at <http://www.hp.com/broadbandwireless>.

*Subject to coverage availability.
