Gentlemen:

The enclosed documents constitute a formal submittal and application for a Grant of Equipment Authorization pursuant to Subpart C of Part 15 of FCC Rules (CFR 47) regarding intentional radiators. Data within this report demonstrates that the equipment tested complies with the FCC limits for intentional radiators.

This submittal was prepared by Elliott Laboratories, as duly authorized agent. A copy of the letter of our appointment as agent is enclosed. Please also find enclosed a check in the amount of \$1075.00 for the application fee.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

A handwritten signature in cursive script that reads "Mark Briggs".

Dear Examiner:

I am writing to avoid the possibility of an inadvertent disclosure of proprietary information.

The accompanying Form 731 is being filed with the commission on our behalf by Elliott Associated Laboratories, Inc. a consulting and testing laboratory. Included as an exhibit with the enclosed application are block diagrams, schematics, and a detailed description of the theory of operation and the photographs requested in Form 731.

It is our intention to provide the commission with a full disclosure of our process so that its merits can be evaluated fully. Indeed, we are pleased to provide any further information that the commission might wish to see. It is not our intention, however, to make our proprietary process a matter of public record.

In view of the fact that the schematics, block diagrams, and associated theory of operation disclose the mechanism of our process, we ask that these portions (schematics, block diagrams and theory of operation) of our application be withheld from public inspection as provided under FCC section 0.459. These diagrams contain details of the operation of circuitry in our product and constitute trade secrets.

We request that these documents and this letter be segregated from the body of our evaluation report and withheld from public inspections.

Thank you for your attention. Please let me know if the Commission disagrees with our position or requires further justification. My direct dial telephone number is (650) 237-8325.

Sincerely,

Mark Byington
Senior Vice President
