FCC ID: NIYMWP5020-AW

## **Operational Description**

| The transmitter of the EUT (WIRELESS OPTICAL MOUSE) is powered by 3V Batteries. The                  |
|--|
| antenna type is loop antenna. The output power of this device is very low. Under normal use          |
| condition, the transmitter and the receiver are quite close, so high EIRP power is neither necessary |
| nor allowed because of interference.   |
